- Lonija Kazlauskā
- Giulia Sfreddo
- Andre Karl Ebouaney
- Oana Dau-Gaspar
- Marianna Araouzou
- Chrystalla Panayi
- Ana Isabel Herranz Zentarski

MULTIPLIER EVENTS

Partners give feedback about the ongoing Multiplier Events.

COMCY: has some problems reaching the required number. As the Multiplier Events are going to take place online due to Covid-19 restrictions, they are considering organising an international event, recruiting people from other countries.

IST: is organising the ME face-to-face. They have organised one and will continue with the ME after the Easter Holidays.

ATFCT: Organised several events online. The events were focused on different stakeholders and had more than 80 participants.

APEIRONS: Organised an online event with 120 people with participants from other organisations and governmental entities. It lasted for 3 hours and was in the form of a conference. The university will try to implement it as part of the course for caregivers.

OPENEUROPE: Organised 5 face-to-face ME in its facilities in Reus. The participants came from different associations, governmental entities and education centres.

WEBPAGE PILOTING RESULTS AND NEXT STEPS

The feedback about the online course and the platform was very positive. After taking into consideration all the comments made by the participants in the pilot, partners have agreed on changing the following issues:

- Add the first page with the title of the course
- Add accessibility tools (app)
- FAQ in the main bar, between the online course and knowledge platform
- At the end of each unit, add a button **previous** and **next**.
- Make sure that the website works on mobile phones and tablets.
- About the project, add target groups and a paragraph about the partners' expertise.
- Course introduction: change the paragraph talking about the target groups.

BUDGET TRANSFERS, DOCUMENTS TO BE UPLOADED AND JUSTIFICATION

Apeirons will prepare a new budget, modified with the allocations that have been transferred to other categories and will contact each partner separately to talk about financial issues.

Partners have to check and upload the timesheets with the hours for IO3, the contracts and the invoice for the translator.

The deadline for uploading the documents: **12th April**.

OTHER QUESTIONS, COMMENTS OR ISSUES

Apeirons will provide the certificates for 4TM and 5TM.

All partners have to fill in the Final Quality Assessment, prepared by Eurocrea.

Partner will have to share about the 5th TM and ME in their own social media and the FB of the project.

30th of April is the last day of the project.
